Sales and design by
appointment only.

Aqua Clear Pools & Spas, Inc. was established in 1988 by Scott S. Craver. Scott began building swimming pools in the Volusia/Flagler area in 1982. Aqua Clear Pools & Spas, Inc. is a family owned and operated business.

Over the years, we have built our reputation on quality construction and service. We work closely with homebuilders to coordinate our scheduled activities and the completion date. Pool construction behind a home under construction is finished just prior to the home being completed.

Pool construction behind a previously constructed home takes approximately eight weeks, depending on the size of the swimming pool.

At your convenience, our sales consultant will meet with you and discuss different layouts and options available. We will present you with a written proposal and assist you in choosing your tile colors, deck color and interior color from the many, many choices available to you at no additional cost.

We look forward to talking with you regarding your backyard paradise!

Options to consider:

- ✳️ Colored Lighting
